It is often remarked by strangers visiting our State that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons: in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage. may 21-d6tw1t

RESOLUTIONS.—During the downward trip of the steamer *North State*, on which the delegates to the Congressional Convention returned from Fayetteville, they held a meeting, Mayor Canaday was called to the chair, and the following resolutions were adopted, and on motion the chair was authorized to appoint a Committee to present them to Capt. Green.

Green, Captain of the steamer *North State*, our sincere thanks for the kind and courteous treatment which we have received at his hands, and earnestly hope that his example may be followed by others.

FOR CONGRESS,

NEILL McKAY,

OF HARNETT.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION.

Thomas R. Purnell,

OF FORSYTHE.

Our Candidate for Congress.

We learn from our delegation, who returned last night from Fayetteville, that Col. Neill McKay, of Harnett county, was nominated as the Republican candidate for Congress in this the third Congressional District, unanimously, upon the first ballot. This unanimity among our friends augurs well for the success of the Republican party in August next. We are informed that much enthusiasm prevailed among the delegates, and a determination to give to the nominee a hearty support was manifest.

Col. McKay is well known as a sterling Republican, every way qualified to represent the *whole* people of this District, and one who enjoys the confidence of the people. Col. McKay being one of the dominant party in Congress, will give him superior advantages in advancing the interests of the Cape Fear section. He is alive to the importance of the improvement of our river and harbor, and when he asks for aid we doubt not a willing ear will be given him, and liberal appropriations be made for this great State and National work.

In the name of the great party he represents, he will have a right to demand for our people the same appropriations for his district as is awarded to others, and his election will give assurance to Congress that the Cape Fear region have thrown aside their cry of war upon the United States, and hostility to the President; that we are in harmony with the government and desire the promotion of good feeling between the sections of our country so recently at war with one another. His election will encourage the friends of free government everywhere and cause the representatives to recognize our first claims to government aid in advancing the commerce of our State and the country. It behooves every good Republican to use every honorable means to promote and secure the election of Col. McKay. With united efforts on our part, and a determination to do our whole duty in the approaching campaign, success will surely be our reward. There will be no cause of dissension among us. Colonel McKay was the *unanimous* choice of the convention, on the first ballot, a deserving compliment to the nominee, and indicating the right spirit among delegates who represented the sentiment of the Republicans of the district, and with that sentiment prevailing among our people we can go into this contest with buoyant spirits, and stout hearts, which will secure us the victory. Our enemies have no principles, they are far from being united. The old Federal Whig and the straight out secession democrat, with his resolutions of 1798–99 sleep but restlessly in the same bed.

Danger of Being too Social.

Mr. Rousseau, of Dakota Territory, while traveling to New York, with several thousand dollars in his belt to buy goods, got acquainted on the railroad cars with a fascinating young man, styling himself Charles Warner, a dry goods agent, and this hasty acquaintanceship ended by Rousseau being drugged and robbed. The nice young man was very hospitable, and took Rousseau to the house of his sister, as he said, and would not permit him to run into hotel expenses. Rousseau remembered nothing more that happened until he was picked up in the street by a policeman — Moral—Be careful about making the acquaintance of nice young men in the cars.

A boy who had been taught that time is money, appeared at the bank the other day, and remarked that he had an hour given him, and he would like to spend a quarter of an hour, and would take the change for the other three-quarters.

The President's Pardon a Bar to a Civil Suit.

Judge Blatchford yesterday rendered his decision in the United States District Court, in the case of the United States against David Tilton. The facts of the case are briefly these: In October, 1869, the defendant imported a quantity of nutmegs from Canada without paying the duty imposed upon them by law. The following year suit was commenced against him under the acts of 1799 and 1823 for the recovery of $2,472, which was double the value of the goods. While the case was pending he was indicted criminally for smuggling the same goods. In October, 1871, he was tried upon this indictment, found guilty, and sentenced to five months' imprisonment, a fine of $1,000, and to pay the costs of the prosecution, which amounted to $1,326 16. He served his time and paid the fine, and, upon proving that he was unable to pay the costs of the case, received a free pardon from the President in February, 1872. The action for the recovery of the double value of the smuggled goods was subsequently pressed in the nature of an action for debt. The defendant put in a special plea of an unconditional pardon for the offense, as disposing of all claims against him. To this the plaintiffs demurred, on the ground of insufficiency. The defendant joined issue, and the matter was argued fully before Judge Blatchford. The decision of the court is that the pardon is a bar to further suit, and is properly set forth by the defendant. He therefore overrules the demurrer, with leave, however, for the plaintiffs to reply to the special plea.—*N. Y. Times, 18th inst.*

The proposition of Capt. Eads, of St. Louis, to overcome the obstructions in the Mississippi, below New Orleans, by means of a system of jettes, without expense, either to the United States or Louisiana, unless his work should prove entirely successful, is likely to command additional favor, in consequence of some interesting revelations, which have been made by the New Orleans *Picayune*. Capt. Eads' design has been vigorously opposed in and out Congress, especially by parties who insist upon it that the only way of securing unobstructed navigation below New Orleans is to provide a new outlet to the Mississippi, which at present has only five mouths. This they propose to accomplish by constructing a ship canal from Fort St. Philip at the expense of the Government, notwithstanding that the practicability of this project is deemed extremely doubtful by many competent judges. The pertinacity with which the canal scheme is urged may in a measure be accounted for from the fact that the success of an extensive real estate speculation depends upon a liberal expenditure of Government funds in this direction. It appears that about fifty days after the order of the War Department, convening a board of engineers, to report upon the canal project, 6,400 acres of land were entered in the Louisiana Land Office as tidal overflow land, and patents obtained therefor by John Beckwith, a brother of Gen. Beckwith of the United States army, who was lately on duty in the Department of the Gulf. Later, in January, 1874. patents were issued to one J. S. Copes for 1,867 acres of land, also described as subject to tidal overflow, at the price of twenty-five cents per acre—all of these lands being situated in the immediate vicinity of Fort St. Philip. The lands of Beckwith run back from the river to the bay in the rear of Fort St. Philip, while those of Copes are situated two miles below the fort, and also run back to the bay. The effect which the construction of the canal through these lands would have upon the value of the property is obvious; but really it appears to be asking too much to require the people to be taxed several millions of dollars in order to make this purchase of marsh lands reach the great expectation of the purchasers.

Modern Chivalry.

The Crown Prince of Prussia has recently acquired considerable *eclat* by an unstudied yet effective, assumption of the *role* of Sir Walter Raleigh in the famous cloak scene with Queen Elizabeth. It seems that he and his little wife, the English Princess, were unduly late in their arrival at the gala dinner given to the King and Queen of Saxony during their recent visit to the Prussian Court, and, through some misunderstanding, the carpet leading from the carriageway to the castle door had been removed by the servants. It was a wet, disagreeable day, the pavement was sloppy, and the little Princess was in full dress, with voluminous train, and feet shod in slippers. With an impulse of chivalry worthy of the sixteenth century, the Prince threw off his wrap, and spread it on the walk for the Queen —no, the Princess—to tread upon.

She, poor little practical body, spoiled the poetry of the incident by a baseborne instinct of economy, and entreated the Prince not to profane his garment by contact with the mire and conversion into a carpet. But the brave Prince was true to the demands of the situation, and gallantly conducted his wife in safety over the bridge he had improvised. It is a pretty little incident, and a great improvement upon the original. The affair of Sir Walter has been cited as the most exquisite example of chivalry in all history. But the shrewd courtier laid down his cloak at the feet of an imperious Queen, who taught her attendants that flattery and servile attentions were the price of her gracious smiles. The Crown-Prince spread his wrap before his wife from a genuine motive of respect and affection. How much more proud she had a right to be, in walking over it, than Elizabeth had, who trod the same sort of tapestry three centuries ago.

The Lesson of the Mill River Disaster.

As the sorrowful details in regard to the Mill River disaster in Maassachusetts become more fully known, it becomes painfully apparent that the horror of the earlier reports of the calamity was not exaggerated. It is evident, too, that the origin of the misfortune can be traced to causes other than those that may be strictly termed accidental. Here again, as in so many cases recently, we find the evil asserting itself of that fatal fault of modern mechanical industry—cheap and negligent construction. The principle of mistaken economy, or rather of blind avarice, seems to overlay all considertions of safety. It appears, from statements worthy of attention, if not of absolute credence, that the Mill River dam was built more with a view to making large profits out of the job than with regard to the essentials of strength and durability. The structure is represented as having been weak and faulty from the commencement, and to have been still further invested with the attributes of danger through negligence in repairing it, when the signs of its decay and weakness exhibited themselves. The consequences of this negligence are terrible enough in this instance to awaken our industrial communities to a higher sense of duty in those departments of construction, wherein strength of material and thoroughness of workmanship are requisite for the preservation of human life. It has happened that the existence of this fault of cheap and careless building has been revealed of late by several calamities, of which that which has afflicted the desolated valley of Mill River is the most disastrous. The lesson is a terrible one. Let us, at least, from its terrors derive what profit we may in the shape of closer attention in the future to the requisites of security.—And while the instinct of self-preservation will, no doubt, in the presence of such examples, inspire a wholesome popular protest against the system of cheap and faulty building, it would be well for our Legislatures and constituted authorities to give their attention to the subject.

Newspapers.

Too low an estimate is apt to be set on the domestic value of newspapers After reading them, and putting ourselves, through their agency, in mental correspondence with the world, they are thrown aside and forgotten. But to suppose their usefulness bounded by their news columns and the waste-bag is a thriftless mistake.

In the first place, there are the household recipes to be found in stray corners, often excellent, and deserving a refuge on the fly-leaf of the family cook book. Then the brief biographies and reminiscences which, pasted in a scrap-book, are a source of never-ending pleasure, not only to those who do not care for richer intellectual food, but to those who have only odd reading.

Notwithstanding the squibs jocular journalists have penned on the use of newspapers for bed clothing, know from experience that these are not to be despised. Two thicknesses of paper are better than a pair of blankets, and in the case of persons who dislike the weight of many bed clothes they are invaluable. A spread made of a double layer of paper between a covering of calico of chintz is desirable in every household. The papers should be tacked together with thread, and also basted to the covering to keep them from slipping. An objection has been made on account of the rustling, but if soft papers be chosen the noise will not be annoying, especially should the spread be laid between a blanket and the counterpane.

As a protection to plants against cold, both in and out of doors, nothing is better. If newspapers are pinned up overnight at a window betwen pots and glass, the flowers will not only not be frozen, but will not even get chilled, as they are liable to be in the winter season. In the same way, if taken to cover garden beds, on frosty nights of early autumn, they will allow the plants to remain safely out doors some time later than is common.

One of the oldest services to put our journals to is the keeping of ice in the summer. An ingenious housekeeper recently discovered that her lump of ice would last nearly twice as long when wrapped in newspapers, and placed in any kind of covered box, as when trusyted solely to a refrigerator. This is vere convenient, since it is possible to have the best and cheapest refrigerator constantly at hand.

To polish all kinds of glass after washing, except table glass, no cloth or flannel is half so good as a newspaper; and for a bakers's dozen of other uses, quite foreign to its primal purposes, it is without a rival.

The Postoffice Department is doing a greater business than ever before, and its receipts are much larger. During the month of April 86,000,000 postage stamps were ordered throughout the country. The receipts from postage stamps, postal cards, &c., are now running along on an average of between one hundred and thirty and one hundred and fifty thousand dollars' worth per day. The policy of the Department is to become self-sustaining.

MARSHAL'S OFFICE,

WILMINGTON, N, C., April 22, 1874.

NOTICE.

I WOULD MOST RESPECTFULLY CALL the attention of the citizens to the fact that the warm and sickly season is near at hand, and it becomes my duty to adopt the most stringent sanitary measures at this particular time to preserve the health of the city and prevent the introduction of disease that may originate from foul and unwholesome matter, filth, garbage, trash and refuse matter which has a tendency to create unwholesome and offensive odors. In order to prevent as far as possible the spread of those diseases peculiarly incident to this season of the year I would most respectfully solicit the co-operation of the citizens generally in placing our city in such a sanitary condition as to render it as far as practicable impregnable, at least to those diseases which originate from foul and unwholesome matter. To this end the entire force of the city will be employed in cleansing, draining, cleaning, disinfecting and removing trash, &c., for at least the next fifteen or twenty days. All persons are requested to have the trash, offal, refuse matter, &c., cleaned from their premises and placed upon the streets, whence they will be removed immediately. When it is convenient please use boxes or barrels.

Persons needing disinfectants can have the same free of charge by calling at my office.

The health officers, designated by a yellow rosette, may be notified of any stagnant water standing upon any lot, or damp cellar or anything that would impair the health of the city, and any complaint lodged at this office shall receive prompt attention.

Believing that a proper sanitary condition adopted now, at this early season, will insure a healthy summer I earnestly solicit the aid and co-operation of all the good citizens to accomplish this good end.

Respectfully, &c., GEO W. PRICE, JR.,
april 23—tf City Marshal.

The Republican Party in North Carolina.

PLATFORM.

The following is the platform of the Republican party in North Carolina, adopted in Convention at Raleigh, April 17, 1872:

The Republicans of North Carolina in Convention assembled:

Resolve 1. That the platform and principles of the Republican party of North Carolina, as heretofore enuncinated in its Conventions, are hereby re-affirmed, and events have proved that their practical enforcement is essential to the welfare of the country, and to the maintainance of the rights, interests and liberties of the people

2. That the administration of President Grant meets with our hearty and unqualified approval, and our delegates to the National Republican Convention to assemble at Philadelphia on the 5th day of June next, are instructed to vote for his re-nomination to the Presidency of the United States.

3. That the Republican party of North Carolina favors as rapid a diminution and as early an extinction of all internal revenue taxation as the exigencies of the Government will permit, for the reason that the details of its collection are necessarily offensive, and, in many respects, oppressive to our people.

4. That all internal revenue taxes on distillation of fruit ought to be abolished.

5. That the Republican party of North Carolina recommend to the Congress of the United States the passage of a general amnesty bill, and the adoption of all necessary measures for the enforcement and protection of the civil and political rights of all classes of American citizens.

6. That in a free and representative government, we recognize the paramount obligation to provide efficiently for the general education, of the people, and we favor such legislation as will accomplish that end: that we respectfully recommend and ask of the national government, such aid, by the provision of public fund or the donation of public land to the purposes of establishing schools in the several States, as will secure to the masses of the people of all classes the benefits of a liberal education.

7. That we full endorse the acts of Congress, passed to secure equal rights and protection to the citizens of the United States, in the several States; and we respectfully recommend a continuance of the present laws and the adoption of such further legislation as will more certainly secure to the citizens, full and practical enjoyment of all their rights, privileges and liberties.

8. In the opinion of this convention, the Democratic majority of the last legislature, by consolidating into one act its numerous propositions to amend the State Constitution, endeavoring to force upon the people a false issue, and to force them into the adoption of obnoxious amendments, and inasmuch as all these propositions must be submitted to the next Legislature for ratification, before the same can be referred to the people; therefore,

Resolve 1. That the amendments proposed as a whole do not meet the approval of the Republican party, because their adoption would subvert essential principles of the existing Constitution.

2. That Republicans can endorse a portion of said amendments and the next General Assembly may adopt such of them as shall seem best for the general welfare.

9. That we cordially endorse the administration of Gov. Caldwell, and recognize the fact that onr people may rely upon his firmness in upholding their interests and defending their rights; and we heartily thank him for resisting the revolutionary purposes of those who designed to deprive the citizen of the protection afforded by the Constitution.

10. That forgetful of personal preferences we pledge ourselves to support earnestly and without reserve, the candidates presented by this convention, believing that in unity alone is strength, and that principles are more important than men to the republicans of North Carolina.

The following is the plan of organization which was adopted:

Resolved, That hearafter the organization of the republican party of North Carolina shall be as follows:

1. A State Executive Committee of eleven members to be appointed by the presidents of the State Convention; and the presidents of the convention shall be *ex-officio* on of the members of such committee.

2 Congressional District Committee for each district, to be composed of one member from each county, to be appointed by the Congressional District Convention.

3. A County Executive Committee to be composed of one member from each township, to be appointed by the County Convention.

Resolved, That the present organization shall continue to exist until the new one shall be effected.

Resolved, That the representation in the county convention shall be in accordance with the plan of organization of the party heretofore adopted.

The State executive committee is as follows:

I E West, of Craven,
T B Keogh, of Guilford,
N W Lillington, of Davie,
S F Phillips, of Wake, ex-officio,
R W Logan, of Rutherford,
S T Carrow, of Beaufort,
J W Hood, of Mecklenburg,
J H Harris, Wake,
R B Ellis, of Wake,
G L Mabson, of New Hanover,
J H Williamson, of Franklin.

Prospectus for 1874—Seventh year

THE ALDINE

An Illustrated Monthly Journal, universally admitted to be Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or Music Stores

THE ALDINE while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The wood-cuts of THE ALDINE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALEINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscribers to THE ALIENE will at a trifling cost, enjoy in his own home the pleasure and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attraction any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountins New Hampshire the other gives the Cliffs, of Green River, Wyoming Territory. The difference in the nature of the scenes themselves in a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12 x 16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr Moran himself.

NEWARK, N.J., Sept 20th,

Messrs. JAMES SUTTON & Co.

Gentlemen,—I am delighted with proofs the color of your chromos. They wonderfully successful representation by mechanical process of the original paintings.

Very respectfully,

(Signed,) THOS. MORAN.

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscribers should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

TERMS.

$5 per annum, in advance, with Oil Chromos free.

For 50 Cents Extra, the chromos will be sent, mounted, varnished, and prepaid by mail.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificated is given, bearing the facsimile signature of JAMES SUTTON & Co.

THE SUN.

—:o:—

WEEKLY, SEMI-WEEKLY, AND DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation, but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more are briefly as follows,

It is a first rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when o moment, and always presented in a clear intelligible, and interesting manner.

It is a first rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste

It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no color.—It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle markets, to which it pays particular attention.

Finally, it is the cheapest paper pulished. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

We have no traveling agents.

THE WEEKLY SUN.—Eight pages, fifty six columns. Only $1 00 a year. No discounts from this rule.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun, $2 00 a year. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four page newspaper of twenty eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or $6 00 a year. To clubs of 10 or over, a discount of 20 per cent. Address,

Office of County Commissioners,

NEW HANOVER COUNTY, Wilmington, N. C., May 13, 1874.

IN PURSUANCE OF SECTION 16 OF AN act to Raise Revenue, ratified February 14 th, 1874, the Board of County Commissioners of New Hanover county will meet at the Court House in the city of Wilmington, on the

THIRD MONDAY IN MAY, 1874

and then and there proceed to revise the tax lists and valuation reported to them, and complete the lists, by computing the tax payable by each person and affixing the same opposite his name. The session of the Board will continue for the space of three working days.

The following duties devolve upon the Board:

1st, They shall hear all persons objecting to the valuation of their property, or to the amount of tax charged against them.

2. They shall have power to raise he valuation upon such property as they shall deem unreasonably low. For the purpose above indicated the Board of Commissioners are empowered to summons and examine witnesses, and to correct the abstracts of the Township Boards of Trustees.

AS MAY BE JUST AND RIGHT,

and so the valuation of similar property throughout the county shall be as near uniform as possible.

After the Tax Lists are made up and placed in the hands of the Sheriff it will become very difficult to make any alterations in them. Therefore all persons interested will please attend to this important matter.

The frequent applications to the County Commissioners heretofore for relief and correction of errors—almost entirely the fault of the tax-payers— has become an evil of great magnitude, costing the county much more to correct errors than the whole amount involved. Notice is now given that no alteration will be made after the time expires except in accordance with the letter of the law.

SILAS N. MARTIN,

Chairman Board of County Commissioners.

A weekly magazine of sixty-four pages, THE LIVING AGE gives more than THREE AND A QUARTER THOUSAND double-column octavo pages of reading-matter yearly, forming four large volumes. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Poetry, Scientific, Biographical, Historical, and Political Information, from the entire body of Foreign Periodical Literature.

A NEW SERIES

Was begun Jan. 1, 1873, with entirely new Tales, already embracing Serial and Short Stories by distinguished English French, German, and Russian authors; viz., Lord Lytton (Bulwer,) Erckmann-Chatrian, Ivan Turguenieff, Miss Thackeray, Mrs. Oliphant, Fritz Reuter, Mrs Parr (author of "Dorothy Fox") Julia Kavanagh, &c.

During the coming year, as heretofore, the choicest serial and short stories by the Leading Foreign Authors will be given, together will an amount unapproached by any other periodical in the world, of the best literary and scientific matter of the day, from the pens of the above-named and other foremost Essayists Scientists, Critics, Discoverers, and Editors, representing every department of knowledge and progress.

The importance of THE LIVING AGE to every American reader, as the only complete as well as fresh compilation of a generally inaccessible but indispensable current literature,—indispensable because it embraces the productions of THE ABLEST LIVING WRITERS in all branches of Literature, Science, Art, and Politics,—is sufficiently indicated by the following

"In no other single publication can there be found so much of sterling literary excellence,"—The Nation, New York.
